### CANDELABRA'S LONG BRANCH

Banquet and Mars Easily Defeated-Prince George Wins the Second Race.

RACE TRACK, MONMOUTH PARK, July 15.-The attractive programme and the beautiful, cool, clear weather formed a combination that the average racegoer found hard to resist to-day. Nearly 10,000 people visited the track.

than on any previous day, barring The track has dried out perfectly, and

was in fine condition for the trials of the thoroughbreds. Racing began with a five-and-a-half-

furlong dash for two-year-olds. Roland Reed was the choice, but Bandit had a creat following, Orlando Jones playing the colt all over the ring. The others were only nibbled at. Miss Fordham had some following, while the others were practically neglected.

Bandit made a show of his field, win

Bandit made a show of his fleid, winning in a canter by several lengths from Roland Reed, who held the others safe throughout. Wolsey was a fair third.

Only three horses started in the second race, Prince George, Daily America and Lifeboat. The former opened at 4 to 5. Daily America and even money, and Lifeboat at 3 to 1. The two choices receded to 7 to 5, and then the money came in on Daily America and he went to the post a slight favorite.

The race was between Daily America and Prince George. Lifeboat cut out the running to the stretch, where Daily America and Prince George moved up. A red-hot drive through the stretch resulted in a head win for Prince George. The third event was the Hollywood Handicap, for two-year-old fillier, Examayor Grant's Doolittle, a 15 to 1 chance, captured the stake easily from the favorite, Beldemere.

Beldemere, entigerna and Lady Rosemary were top weights, and they were well yed. Their jockeys, however, understo make the pace, and the result was they stopped at the end of half a s. Micmac Queen was a poor third.

or the business are returned to the other side.

Dr. Senner told an "Evening World" reporter that he had discovered enough evidence to show that the regular steamship lines had not refused to carry the Red Sea's passengers, but that the charter bartles in Bromen of the Red Sea had offered sub-agents large commissions and had outbid the regular lines for the business.

SOCIETY AS TOM BRENNAN FINDS IT.

Now the Street-Cleaning Corps demands Its Summer vacation,

in explanation of his action:

The reason why I am transferring these people to Ellis Island is because the ship is so dirty and the food so inadequate that it would be an unjustifiable hardship to keep them any longer on board.

They will be kept on the island like any longer on board.

They will be kept on the island like any longer on board.

They will be kept on the island like any other immigrants, and if they cannot pay their own expenses they will be charged against the bondsmen. I expect we shall have examined and registered all the peasengers from the left Sea by to-night.

Perhaps Dr. Samer was stimulated in his action by the receipt of a telegram from Mr. Oscar Straus, ex-Minister to Turkey. It was dated from Arvene-by-the-sea, and read as follows:

"I will furnish bonds, if required, for a damlesion of Russian refusees."

The first batch of passengers from the Ped Sea were landed at Ellis Island at it o'clock this morning. The last was received there about 2. They were a healthy looking lot of people, and fully up to the everage, if not beyone it. Nearly all, of them, the so-called purpers included, have the addresses of friends in this country. One half will remain in New York City, a third are boung for points in Pennsylvania, and the rest are scattering.

A personal bond of \$600 will be required of the immigrants who are without funds before they are permitted to land, to satisfy Dr. Senner that they will not become public charges within a year.

Some—as yet it is impossible to say how many—will surely be returned.
